Overview:

Dr. Elmore believes that children today are overexposed to information at an earlier age than ever. Paradoxically, they are underexposed to meaningful relationships and real-life experiences, which are necessary for true maturity. Too often, parents and teachers mistake children's superficial knowledge for real maturity. This book is filled with practical steps that adults can

take to furnish the experiences kids need to balance their abilities with authentic maturity, better preparing them for life.

Facilitated by Mr. Dan Lederer (Assistant Principal) and Dr. Barbara Bush (Student Assistance Counselor and Licensed Psychologist), each 2 hour book talk promises humor, reflection, spirited discussion, and practical suggestions.
